

Mobile Ammunition Disposal Facility Amunmobil

A goal of sonUtec was to develop a real environmentally friendly stand- alone mobile facility for dispose of explosives. We created Amunmobil. Amunmobil can be transported flexibly and used on different locations.

Amunmobil provides a safe and environmentally friendly disposal of outdated and recovered ammunition or UXO.

The core parts of Amunmobil are a sonUtec kiln, the flue-gas treatment system and the supply of electricity.

Advantages of Amunmobil

- compact design
- short start-up time
- simple handling
- low maintenance effort
- no sewage
- diesel power supply only
- flue-gas treatment upgradeable per customers wishes

Mobile Ammunition disposal plant: Amunmobil
